

360

With 360 and 360^{TFR} you can detect risks in the attitudes of board members, managers and front-line managers, in the most sensitive and risky issues that can lead to potential or catastrophic risks to the patrimony or security of your organization.

the Organization

Method

Call Center

We use a questionnaire specifically design for the needs of your organization.

360

Analyzes sensitive issues for the organization.

360^{TFR}

Analyzes risk issues for the organization.

This solution eliminates the main weaknes of the *Feedback 360° tool*, the uncertainty of truth.

We evolved the principle of the *Feedback 360° tool*, because we are able to detect the people who lie in their opinions.

Competitive Advantages

Greater Reach

Available around the world in any language. All you need is a phone line.

Cost Effectiveness

With extremely economical and highly profitable prices.

Vanguard

It is the most modern and most advanced tool of its kind worldwide.

Specific

You obtain specific features of those involved in a possible risk of micro organizational climate.

Double Display

It can be viewed from the scenarios: opinions issued and opinions validated in veracity.

Ease

It is very easy to implement and apply, since Ethics® takes care of the difficult part.

Adapatable

It is totally adaptable to your needs, designed to evaluate the specific points you require.

All results are delivered through an interactive individual report with audios included in the Ethics® App.

For data processing, we use a unique and patented process, Ethics® Management Process, which relies on different technologies.

Contact your Ethics® Consultant or Adviser to hire and learn more about our services.
